TECHNICAL INFORMATION

HOW TO ORDER

Description

These insulation sleeves are meant to be slipped onto wiring of the appropriate size which is then crimped to a female receptacle or male tab (not provided). The sleeve is then slid into position to cover the metal connector.

Size of insulating sleeves type 250: 25 x 9.5 x 6 mm (0.98 x 0.37 x 0.24 in.)

For use with 6.3 mm (0.250 in.) female receptacles (not included).

Technical Data

Center to Center Spacing:

Conductor Cross-section: $n4 \text{ mm}^2$ (6199 mils²)

Tab Size: 6.3 mm (0.250 in.)
